**We are proud to be part of the international team on this Project
and I wish all of us success in our work!**

The Chamber of Economy of the Federation of Bosnia and Herzegovina is a business association.

It was established under the Law on Chambers in 1999.

Its goal is to support companies in the Federation of Bosnia and Herzegovina in successfully running and growing their businesses.

The Chamber advocates the interests of companies towards government bodies, relevant international organizations, and other institutions, in order to create the most favorable business environment and open new opportunities for its members.

All chambers in the Federation of B&H are legal entities and have a wide mandate in representing and promoting the economy of the region.

COMPLETED DUAL EDUCATION PROJECTS

Promotion and Education Center

The Promotion and Education Center was established in 2015.

Its primary task is to provide companies and their staff with continued business education.

The concept of lifelong learning through the implementation of dual education is the guiding principle of the Center's work.

The Center's mission is to provide continuous education to our member companies and other companies, through specialist courses on current topics according to the demands of the labour market.

The Chamber has close cooperation with the Federal Ministry of Education and Science, as well as with many universities, and participates in the development of current policies and strategies.

In recent years, we have been part of a team that successfully implemented two dual education projects: DUALSCI and PARTISH.

Economic and social development are greatly influenced by climate change. It is critical that the higher education system contributes to building capacity for a sustainable and resilient society, of building our vulnerable economies and the education systems necessary to create climate resilient communities.

CURRENT PROJECTS: DIGITAL, GREEN AND SUSTAINABILITY WESTERN BALKAN SOCIETY

1FUTURE

jOINED For sUsTainability bUilding climate Resilient communities in WB and EU

Strategic development of up-skilling and re-skilling the construction ecosystem

Digital Education Readiness in the Field of Higher Education (DERHE)

And today we are at the beginning of a new project:

Boosting digital and green skills for a resilient and sustainable Western Balkan society
